

E-Safety Sessions - 18th February 2017

As part of our Stockport Digifest celebrations we also want to support parents and children about staying safe online. Calling all Stockport parents! Stockport Libraries and Continuing Education Service are delivering sessions on how to stay safe online.

E-Safety is becoming more and more important in today's world. The recent Growing Up Digital report from Anne Longfield, Children's Commissioner for England explored children's and parent relationships with the online world. Stockport Libraries and the Continuing Education Service have partnered up to deliver E-Safety Sessions aimed at Parents and Children.

The sessions are for families so please bring your children and your own devices along so you can understand how to make those devices safe!

This FREE, excellent, informative family session, will provide a framework of support for Parents and their children so tell your friends!

For further information, or to book a place on one of the sessions please email libraries@stockport.gov.uk
